GALLANTTM METAL LIMITED

Annual Report 2017-18

LETTER TO SHAREOWNERS

Dear Shareowners,

FY 2017-18 was a defining year for Gallant Metal both in terms of financial performance and strategic growth. Over the years, Gallant Metal has grown to be market leader in the State of Gujarat and adjacent states in Steel Sector and has established significant presence in the region. We have traversed dynamic market conditions and challenging demand-supply equations to reach where we are now.

Economic Outlook and Industry

FY 2017-18 was characterised by a broad-based improvement in global growth, rising industrial production, progress on the supply side reforms in China and an uptick in global steel pricing environment.

Compared to the global scenario, the India story remains buoyant and holds significant potential. Firm government reforms, businesses adjusting to transformational policy changes like demonetisation, GST, RERA, etc. and increased spending on welfare and infrastructure needs gels well with the revival of India's growth theme. In FY 2017-18, India grew by 6.7 percent and the IMF growth forecast is 7.4 percent for FY 2018-19 and 7.8 percent in FY 2019-20. It is noteworthy that China's growth in FY 2018-19 will be 6.8 percent making India regain the crown of the fastest growing country among emerging economies.

According to the International Monetary Fund (IMF), the world economy is gathering speed. To make this gain sustainable, shared priorities across economies, which include structural reforms and working towards inclusive growth models, need to be implemented.

The IMF report mentions that 2017 saw the best global growth in seven years, having grown by 3.7 percent. While the growth is broad-based, notable upward surprises in Europe and Asia contributed to the record numbers.

Events around the world in the past year demonstrate a growing willingness of the political leadership to solve geopolitical and trade-related conflicts through debate and dialogue. This approach of world leaders across politics, businesses and regulatory affairs, to find solutions to systemic macro-economic imbalances by sitting across the table bodes well for a more equal world. That said, there are sporadic threats to the world economic order due to country-level

populist measures, ambitions of regional dominance and imbalanced growth within and across economies.

The Indian economy too saw a strong rebound in demand, especially in the second half, demonstrating a healthy resilience to disruptions and structural changes. India's macro fundamentals, such as fiscal deficit and credit rating are improving, and broader based financial reforms are being undertaken through initiatives such as relaxation of FDI rules, enactment of Insolvency and Bankruptcy Code and growth stemming from governmental spending.

Your Company's Performance

For the first time in many years Infrastructure received a big boost in the form of budgetary allocation, and consumer sentiment too is on rise. We are crossing the GDP threshold of US\$2.5 trillion, and a likely thrust on infrastructure development. The medium and long-term outlook for steel demand is very positive. Gallant Metal is participating in strategic opportunities under this process and is hopeful that quality, efficiency and governance will converge to make better utilisation of some of these opportunities.

Being a flagship company of the Gallant Group, Gallant Metal is one of the leading steel producer with integrated steel manufacturing capabilities in the Western India. The company has established its presence with strong technological competencies. Poised to lead the market, Gallant Metal has achieved stellar growth and has maintained its winning streak through the years.

Your Company has delivered good operational performance in FY 2017-18 and recorded a Revenue of ₹ 84,558.04 Lacs and EBIDT at ₹ 9,086.65 Lacs in the Fiscal. Profit before Tax and Profit after Tax stood at ₹ 6,933.53 Lacs and ₹ 4,933.29 Lacs respectively.

Revival in demand in the second half of the year was a key catalyst of our performance and was driven by improving prospects of the auto, construction and capital goods sectors.

We assure you our commitment for continued growth. I would like to thank all our stakeholders including employees, customers, regulators, bankers, vendors, etc. for making this journey memorable and worthwhile. I am confident that with your continued support and cooperation, we shall succeed in leading our mission to a successful conclusion, committed in line with the Government's mission of 'Infrastructure Development of India'.

Yours truly,

C. P. Agrawal

OUTLOOK AND EXPANSION

The recent trend in macro indicators clearly point towards improving fundamentals of the domestic economy. The Central Government has also shown its intent in furthering the reform momentum to revive investments and improve governance. The global commodity cycle is expected to be benign with consumption demand from the Chinese economy slowing down. Taking cues from the inflationary trend, the Reserve Bank of India has already eased the monetary cycle and is expected to bring out more interest rate cuts going forward. All this favorable factors coupled with some of the important developmental reforms that are being pursued by the Central Government like the tax reform and push for infrastructure spending will set the stage for further pick-up in economic activity in 2017-18. This should augur well for your Company's business across infrastructure.

ORDER OF SEBI, NSE AND BSE LIMITED

Vide its order bearing no. SEBI/HO/ISD/OW/P/2017/18183 dated August 07, 2017 the Securities and Exchange Board of India ("SEBI") has classified and included our Company amongst the list of suspected "331 Shell Companies" and shares of the Company were shifted to Graded Surveillance Measures (GSM) VI category with effect from August 08, 2017. As a result of such order the shares of the Company were restrictedly traded since August 08, 2017.

Company has filed various documents and papers to the SEBI, National Stock Exchange of India Limited ("NSE") and BSE Limited ("BSE") as per the required format justifying them that our Company does not fall under the Suspected Shell Companies category.

In the interest of the investors the Company on November 23, 2017 has preferred an Appeal before the Honorable Securities Appellate Tribunal ("SAT") to set aside the order of SEBI as above and to normalize the trading in shares of the Company.

In this regard, the Honorable SAT after hearing the appeal on November 29, 2017 has disposed off the appeal by directing National Stock Exchange (NSE) to pass appropriate order within a period of six weeks from November 29, 2017 and the appeal as above was disposed of by Honorable SAT. During this period of six weeks an Independent Auditor appointed by NSE submitted its report on December 01, 2017 making few observations all of which were satisfactorily addressed by the Company. On December 15, 2017 NSE also granted an opportunity of personal hearing to the Company where the representatives of the Company submitted their representations and successfully answered to some queries raised by the Exchange officials.

Since SEBI vide its letter bearing no. SEBI/HO/ISD/ISD/OW/P/2017/26891 dated November 02, 2017 has delegated powers to stock exchanges to perform direct fact finding exercise and dispose of the representations received by them directly from the Company, NSE based on such powers conferred to it by SEBI has revoked the actions envisaged in SEBI's letter dated August 07, 2017 and the consequential actions taken by National Stock Exchange (NSE) and Bombay Stock Exchange (BSE) against Gallant Metal Limited, its promoters and directors.

Company no longer falls under the list of suspected "Shell Companies" and trading in shares normalized w.e.f. January 01, 2018. The Company placed on record its appreciation towards SEBI, NSE and BSE for revoking its earlier order dated August 07, 2017 regarding suspected shell Company.

ANNEXURE - I TO THE DIRECTORS' REPORT

DIVIDEND DISTRIBUTION POLICY

1. Statutory Mandate

The Board of Directors (The 'Board') of Gallant Metal Limited ("the Company") has adopted the following Policy for Distribution of Dividend to the Shareholders of the Company.

2. Background

The Steel industry is a capital-intensive industry. Most units of the owned by the Company entails substantial capital outlays.

A large proportion of the financing of the Company is through equity capital. With a low level of borrowing in proportion to equity capital, the outlay on dividend forms a substantial part of the cost of capital. It is the Company's endeavour to maintain and pay dividend keeping market expectations in mind. The dividend paid as a proportion of earnings has been maintained accordingly.

The prevailing Governmental and geopolitical environment directly impacts profit in the steel industry. Infrastructural development, both domestic and foreign, depends on factors that are beyond the control of the Company. In the past, the need to meet the general investor's expectations of return on equity during the years of instability has resulted in a relatively reasonable payout ratio.

3. Policy

This Policy for Distribution of Dividend to Shareholders of the Company is framed in terms of Regulation 43 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 (hereinafter referred to as the "Listing Regulations").

4. Dividend

The Board will finalise the dividend to be declared by the Company based on the above stated background while also considering the following:

Dividend will be declared once a year based on the profits as per the Audited Financial Statements for the year. The Board may declare an interim dividend after satisfying themselves about the distributable profit.

Normally, the Dividend will be declared out of the current year's profit of the Company, subject to the following:

- i) Company's need of Capital Expenditures/ Investment;
- ii) Cash Flow position.

Given that profits can be volatile, the Board will Endeavour to achieve stability, to the extent

feasible, in the quantum of Dividend paid to Shareholders.

Should the current year's profit be inadequate, the Board may, after considering the Carried Forward Balance in the Profit & Loss Account of the Company, declare dividend or declare dividend out of Reserves, as is permitted under the law.

As such, the Company may declare the Dividend out of:

- i) Current year's profit –
 - a) after providing for depreciation in accordance with Sub-section (2) of Section 123 of the Companies Act, 2013 ("Act") and
 - b) after transfer of such percentage of its profits for that Financial Year to reserves as may be required under the law and as the Board of Directors may deem fit; OR
- ii) Carried Forward Balance in the Profit & Loss Account; OR
- iii) Free Reserve as may be permitted under law; OR
- iv) A combination of (i), (ii) and (iii) above.

5. Factors to be considered for declaration of Dividend

- i) Capital Expenditure /Investment requirement of the Company for:
 - a) New projects;
 - b) Ongoing projects including expansion, renovation or modernisation etc.
 - c) Acquisition of major fixed assets including land and buildings;
 - d) Acquisition of any business entity etc.
- ii) Payment of any major liability;
- iii) Any other requirements for fund conservation;
- iv) Agreement with lending institutions.

6. Revision in the Policy

The Board of Directors will review the policy from time to time or when changes may be required.

7. General

All the words and expressions used in this Policy, unless defined hereinafter, shall have the meaning respectively assigned to them under the Listing Regulations and in the absence of its definition or explanation therein, as per the Companies Act, 2013 and the Rules, Notifications and Circulars made/issued thereunder, as amended from time to time.

ANNEXURE - V TO THE DIRECTORS' REPORT

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Forming Part of the Report of the Directors for the year ended 31st March, 2018

OVERVIEW OF THE ECONOMIC ENVIRONMENT:

Global economic growth to edge up to 3.1 percent in 2018 after a much stronger-than-expected 2017, as the recovery in investment, manufacturing, and trade continues, and as commodity-exporting developing economies benefit from firming commodity prices. However, this is largely seen as a short-term upswing. Over the longer term, slowing potential growth—a measure of how fast an economy can expand when labor and capital are fully employed—puts at risk gains in improving living standards and reducing poverty around the world.

Growth in advanced economies is expected to moderate slightly to 2.2 percent in 2018, as central banks gradually remove their post-crisis accommodation and as an upturn in investment levels off. Growth in emerging market and developing economies as a whole is projected to strengthen to 4.5 percent in 2018, as activity in commodity exporters continues to recover. The slowdown in potential growth is the result of years of softening productivity growth, weak investment, and the aging of the global labor force. The deceleration is widespread, affecting economies that account for more than 65 percent of global GDP. Without efforts to revitalize potential growth, the decline may extend into

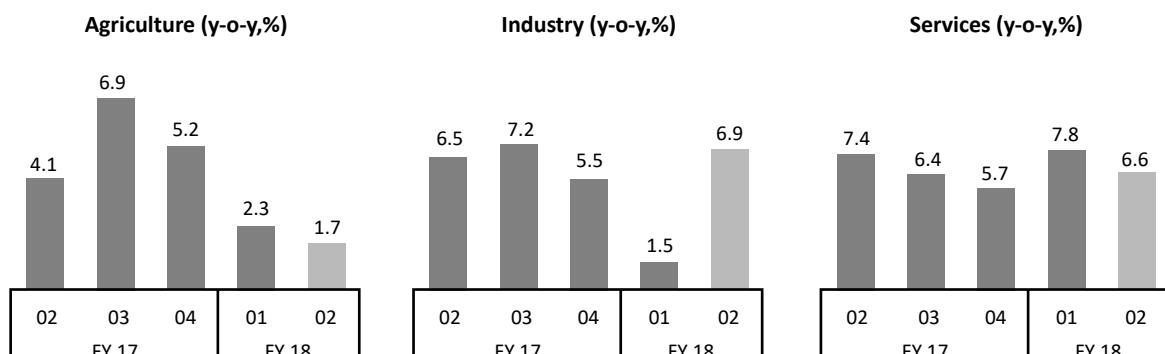

the next decade, and could slow average global growth by a quarter percentage point and average growth in emerging market and developing economies by half a percentage point over that period.

Indian economy have a growth on Domestic Product (GDP) is on a recovery path after slowdown in the first quarter of 2017-18, and real GDP growth for the second quarter (2QFY18) increased to 6.3% from 5.7% in the previous quarter, a likely fallout of the introduction of GST. The second half of 2017-18 will witness a higher growth rate, and this is further expected to consolidate in the coming New Year, as the benefits of GST and other reforms gain traction.

If we talk about sectoral growth of Indian economy, so the agricultural sector registered moderate growth as erratic monsoon in several parts and flooding in some states impacted performance.

On the other hand, Industrial growth accelerated sharply during the second quarter of FY 2018 and jumped to 6.9% from 1.5% in the previous quarter, on account of a sharp increase in manufacturing and electricity, gas, water supply and utility services. Manufacturing registered an impressive growth at 7% in 2QFY18 as compared to 1.2% posted in the first quarter.

Services sector grew only marginally at 6.6% in the second quarter as compared to 7.8% in the previous quarter.

The impact of GST on prices is likely to become clearer in the coming year as the teething problems related to its implementation ease out. Further, the GST Council's decision to cut tax rates on 177 items is also expected to partially ease the inflationary pressure, as the companies start passing the benefits of lower prices to consumers.

The Reserve Bank of India (RBI) kept policy rates unchanged in its fifth bi-monthly monetary policy meeting on 6th December, 2017. However, industry is

hopeful that going forward, RBI would lower interest rates to boost broad-based investment and consumption activity which in turn would promote economic growth.

INDUSTRY OVERVIEW:

A more balanced market and continuation on the pathway to eliminating overcapacity should support profitability in the global steel sector. Infrastructure investment, improving European demand and sustained economic growth in the rest of the world are the main drivers. Cyclical recovery continues to underpin

growth, yet world steel demand growth will slow, to +1.6% y/y from +2.8% in 2017, due to slowing growth in China (environmental restrictions, policy induced restructuring of the economy).

Excluding China, the World Steel Association forecasts demand growth of +3% y/y for 2018. Europe is the strongest region in terms of demand growth with +5.2% y/y. Global steel output increased by +5.3% in 2017, principally on the back of strong growth in China. Even though, average capacity utilisation has improved in 2017, it still stands below 70%. Overcapacity, exacerbated by slowing Chinese demand, remains the principle challenge of the sector. Iron ore may slip back into oversupply as transitory demand switch between grades reverses.

Other metals have seen prices increase on the back of strong demand, notably copper, nickel, lithium and cobalt, the latter ones particularly prospects for batteries and electronics. Restraint on supply expansion is likely to lead to a continuation of demand growth exceeding incremental supply. Strong balance sheets and cash flows could drive M&A in the sector. However, we note risk in relation to the correlation with other sectors, notably construction in China, chiefly for copper.

The Indian steel sector enjoys advantages of domestic availability of raw materials and cheap labour. Iron ore is also available in abundant quantities. This provides major cost advantage to the domestic steel industry. The Indian steel industry is largely iron-based through the blast furnace (BF) or the direct reduced iron (DRI) route. Indian steel industry is highly consolidated. About 60% of the crude steel capacity is resident with integrated steel producers (ISP).

The steel sector contributes near 2% to the GDP of the nation and provides 20 lakh jobs in the country. In FY17-18, India's crude steel output grew 5.87% year-on-year to 101.227 million tonnes (MT) in C.Y. 2017. crude steel production reached on 93.183 (MT) during April-February 2017-18.

India's finished steel exports rose 102.1% to 8.24 (MT), while imports fell by 36.6% to 7.42 (MT) in 2016-17. Exports and imports of iron and steel stood at 14.6 (MT) and 13.1 (MT) during April to February 2017-18, respectively.

Total consumption of finished steel stood at 81.943 (MT) during April-February 2017-18.

Steel prices are now increasingly aligning to global export prices as markets strike a balance between imports and domestic demand. China's waning demand and resultant rise in exports poses a risk to leveraging improving domestic demand in South Asia and Europe. Further, movement of currencies against the US dollar

would also have a significant impact on the movement of global steel and raw material prices.

OPPORTUNITIES AND THREATS:

The Company has ample scope for commencing & executing its second phase expansion with its own resources & funds from markets. The availability of surplus alumina with your Company has put it altogether in a different platform and offers attractive opportunities for participating in the JVs of overseas smelters. The continuation of second generation liberalisation process and the ongoing globalisation trend is likely to bring ample opportunities for the company in playing a key role in metal trading, hedging, tolling, technology collaboration and in redefining new areas for application of its value added rolled products and chemical business.

The threat perceptions for the company include possible worsening of geopolitical scenario across the globe, political instability, great volatility in international prices, terrorism, slowdown of demand in China, reversal in global economic scenario and levy of antidumping duties on its raw material import.

RISK AND CONCERNs:

The prime risk lies in possible international disturbances and sudden appearance of unhealthy trends in the global scenario arising out of political uncertainty in global context. Apart from this, probability of imposition of antidumping duties on its imported raw material and its cost fluctuations add to the existing concern. However, The Company enjoys a natural hedge against these concerns as it has technological edge coupled with professional approach. The cost of iron ore and coal constitute more than 80% of cost of production. Therefore, the profitability of the Company depends on market price of these raw materials. The sure way to substantially reduce the cost of iron ore and coal is to have ownership of these raw materials. The company does not have any iron ore or coal mine and sources all of it from market. The road transportation cost, both for iron ore and coal, is steadily going up over the time. Global warming and climate change have been recognized by the company as serious concerns. Increase in competition, increase in interest rates, inflation, fluctuating markets etc. are area of concern for the Companies.

INTERNAL CONTROL SYSTEM AND THEIR ADEQUACY:

The Company has well established internal control system commensurate with the size of the Company. 'Purchase Manual' and 'Contract Manual' have been updated. The Company has entrusted the jobs of internal audit to outside professional accounting firms. The internal audit reports are discussed thoroughly by an independent Audit Committee constituted by the

Board. The vigilance department of your Company has taken several preventive steps in controlling corruption in the Company. Company has always adhered to the highest standards of compliance and governance and has put in place controls and an appropriate structure to ensure this. The Audit Committee of the Board also reviews the performance of the audit and compliance functions and reviews the effectiveness of controls and compliance with regulatory guidelines.

OUTLOOK FOR THE FUTURE:

Your Company expects that the current up-healthy trend in the economy shall continue in the coming days and

Indian industry as a whole is expected to perform well. With consistent track record in capacity utilisation, quality management, it has gained customers confidence. It is anticipated that LME prices for metals will remain steady in the coming years.

Your Company's future strategic growth plans include further expansion of their capacities. Its strategic plans are also directed towards meaningful utilisation of resources and full capacity utilisation of existing units with proactive financial management and with thrust

on human resource development. The Company has major plans to enter the market in a big way in the coming year to market its value-added products like rolled products, specialty alumina in the domestic and international markets.

CAUTIONERY STATEMENT:

Statements in the Management Discussion and Analysis describing the Company's objective, projections, estimates, expectations may be "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. REPORT ON CORPORATE GOVERNANCE

1. CORPORATE GOVERNANCE PHILOSOPHY

Corporate Governance at Gallant Metal is evolved by not only ensuring compliance with regulatory requirements but also by being responsive and responsible to the needs of stakeholders with rewarding environment. Your Company believes that best Corporate Governance practices are critical to enhance and retain investor trust.

We, at Gallant Metal, believe that good and effective Corporate Governance is critical to achieve corporate vision and mission of the organization; it is more of an organizational culture than a mere adherence to rules and regulations. Law alone cannot bring changes and transformation, and voluntary compliance both in form and in substance plays an important role in developing good Corporate Governance.

A Report on compliance with the principles of Corporate Governance as prescribed by SEBI in Chapter IV read with Schedule V of the Listing Regulations is given below:

The composition of the Board as on March 31, 2018 is as follows:

- Executive Directors - 3
- Non Executive Director - 1
- Non Executive Independent Directors - 4

Names of the Director		% to the total number of Directors
I)	Independent Director	50%
	Jyotirindra Nath Dey	
	Mr. Sandip Kumar	
	Prasant Kankrania	
	Richa Bhartiya	
II)	Non-Executive Non-Independent Director	12.5%
	Nitin Mahavir Prasad Kandoi	
III)	Executive Director	37.5%
	Chandra Prakash Agrawal	
	Dinesh Raghbir Prasad Agarwal	
	Prashant Jalan	

The composition of the Board reflects the judicious mix of professionalism, competence and sound knowledge which enables the Board to provide effective leadership to the Company. The Board is balanced comprising Executive and Non-Executive Directors. The Board has been constituted in such a way that it has understanding and competence to deal with current and emerging business issues. The Board periodically evaluates the need for change in its size and composition to ensure that it remains aligned with statutory and business requirements. None of the Directors are related to each other. Also, relative of Mr. Dinesh Raghbir Prasad Agarwal is employed in the Company.

2. BOARD OF DIRECTORS

2.1 Composition

Your Company's Board has an optimum combination of Executive, Non-executive and Independent Directors with one women Director, as per the requirements of Regulation 17 of SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015. The composition of the Board and the Independent Directors of the Company meet all the criteria mandated by SEBI Listing Regulations and the Companies Act, 2013. The Company has a balanced and diverse Board, which includes independent professionals and confirms to the provisions of the Companies Act, 2013 and the Listing Regulations.

INDEPENDENT AUDITOR'S REPORT TO THE SHAREHOLDERS

Report on the Financial Statements

We have audited the accompanying Standalone financial statements of **GALLANTT METAL LIMITED** ("the Company"), which comprise the Balance Sheet as at 31st March, 2018, the Statement of Profit and Loss including Other Comprehensive Income and the Cash Flow Statement and the Statement of Change in Equity for the year then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Sec 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Accounting Standards specified under section 133 of the Act read with Rule 7 of the Companies (Accounts) Rules, 2014. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the rules made thereunder.

We conducted our audit in accordance with the Standards on Auditing specified under section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments; the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on whether the Company has in place an adequate internal financial controls system over financial reporting and the operating effectiveness of such controls. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Opinion

In our opinion and to the best of our information and according to the explanations given to us, the Standalone Ind AS financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India including the Ind AS, of the financial position of the Company as at March 31, 2018 and its financial performance including comprehensive income, its cash flow and its change in equity for the year ended on that date.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order") issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure A, a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purpose of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books and proper returns adequate for the purposes of our

- audit have been received from branches not visited by us;
- (c) the Balance Sheet, Statement of Profit and Loss, and Cash Flow Statement dealt with by this report are in agreement with the books of account and with the returns received from branches not visited by us;
- (d) in our opinion, the aforesaid Standalone Ind AS financial statements comply with the Indian Accounting Standards referred to in Section 133 of the Companies Act, 2013, read with rule 7 of the Companies (Accounts) Rules, 2014.
- (e) on the basis of written representations received from the directors as on 31st March 2018, and taken on record by the Board of Directors, none of the directors is disqualified as on 31st March 2018, from being appointed as a director in terms of sub-section (2) of section 164 of the Companies Act, 2013.
- (f) with respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate report in "Annexure B"; and
- (g) with respect to the other matters included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanation given to us:
- i) The Company has disclosed the impact of pending litigations on its financial positions in its financial statements.
 - ii) The Company did not have any material foreseeable losses on long term contracts including derivative contracts during the year ended March 31, 2018.
 - iii) There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

ANNEXURE 'B' TO THE AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Gallant Metal Limited ("the Company") as of 31 March 2018 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Notes on Financial Statements

for the year ended 31st March, 2018

Note - 01 General information

1.01 Corporate information

Gallant Metal Limited ("the Company") is a public limited company domiciled in India incorporated under the provisions of the Companies Act. The registered office of the company is located in Kolkata, West Bengal, India. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The Company is engaged in manufacturing of Steel and Steel products with power plant and having its manufacturing unit at Village Samakhiali, Dist Kutch in the State of Gujarat.

1.02 Basis of preparation of financial statement

These financial statement have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention (except for certain financial instruments that are measured at fair values at the end of each reporting period) on accrual basis to comply in all material aspects with the Indian Accounting Standards (herein after referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment rules, 2016.

These financial statements for the year ended March 31, 2018 are the first the Company has prepared under Ind AS. For all periods upto and including the year ended March 31, 2017 , the Company prepared its financial statements in accordance with the accounting standards notified under the Section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India immediately before adopting Ind AS. The financial statements for the year ended March 31, 2017 and the opening Balance Sheet as at April 01, 2016 have been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from Previous GAAP to Ind AS on the Company's Equity, Total Comprehensive Income is provided in note 41.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements, including the preparation of the opening Ind AS Balance

Sheet as at April 01, 2016 being the 'date of transition to Ind AS'. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

The financial statements for the year ended March 31, 2018 were approved by the Board of Directors and authorised for issue on May 21, 2018.

1.03 Basis of measurement

These financial statements are prepared under the historical cost convention otherwise indicated.

1.04 Functional and presentation currency

The functional currency and presentation currency of the Company is Indian Rupee ("₹") which is the currency of the primary economic environment in which the Company operate. All amounts have been rounded to the nearest lakhs, unless otherwise indicated.

1.05 Key estimates and assumptions

The preparation of separate financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Company to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the separate financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are included in the following notes:

Notes on Financial Statements for the year ended 31st March, 2018

- Useful lives of Property, plant and equipment (Refer Note 2.01)
- Assets and obligations relating to employee benefits (Refer Note 2.15)
- Valuation and measurement of income taxes and deferred taxes (Refer Note 2.16)
- Provisions and Contingencies (Refer Note 2.11)

1.06 Measurement of fair values

The Company's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Company has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Company uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The Company recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Note -02 Significant Accounting Policies

2.01 Property, Plant and Equipment (PPE)

Land, Buildings, Plant and Equipment, Furniture and Fixtures and Vehicles held for use in the production or supply of goods or services, or for administrative purposes are stated at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated. Cost includes purchase cost of materials, including import duties and non-refundable taxes, any directly attributable costs of bringing an asset to the location and condition of its intended use and borrowing costs capitalised in accordance with the Company's accounting policy.

Properties in the course of construction for production or supply of goods or services or for administrative purposes are carried at cost, less any recognised impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over the useful lives, using the straight-line method. Depreciation of assets commences when the assets are ready for their intended use. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes accounted as change in estimate on a prospective basis.

Estimated useful lives of the assets are as follows:

Buildings	:	3 to 60 years
Plant and equipment	:	10 to 25 years
Furniture and Fixtures	:	10 years
Office Equipments	:	5 to 10 years
Computers	:	3 years
Motor Vehicles	:	8 to 10 years
Rolls	:	1 year

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is recognised in profit and loss.

The Company has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2016 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Notes on Financial Statements

for the year ended 31st March, 2018

2.02 Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment (if any) losses. Amortisation is recognised at straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of intangible assets is recognised in profit and loss.

The Company has elected to continue with the carrying value of all of its intangible assets recognised as of April 1, 2016 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.03 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Company reviews the carrying amounts of its tangible and intangible assets (Other than goodwill) to determine whether there is any indication that those assets have suffered any impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Company estimates the recoverable amount of the cash generating unit to which the asset belongs.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset for which the estimates of future cash flows have not be adjusted.

If the recoverable amount of an asset or cash generating unit is estimated to be less than the carrying amount, the carrying amount of

the asset or cash generating unit is reduced to its recoverable amount. An impairment loss is recognised immediately in profit and loss.

When an impairment loss subsequently reverses, the carrying value of the asset or cash generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset or cash generating unit in prior years. Any reversal of an impairment loss is recognised immediately in profit and loss.

2.04 Investments in Subsidiaries and Associates

Investments in subsidiaries and associates are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries and associates the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

Upon first-time adoption of Ind AS, the Company has elected to measure its investments in subsidiaries and associates at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 01, 2016.

2.05 Inventories

Raw materials, work-in-progress and finished products are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes purchase price, non refundable taxes and duties and other directly attributable costs incurred in bringing the goods to the point of sale. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty.

Stores and spares are valued at cost comprising of purchase price, non refundable taxes and duties and other directly attributable costs after providing for obsolescence and other losses, where considered necessary.

Value of inventories are generally ascertained on the "FIFO (First in First out)" basis.

2.06 Cash and Cash equivalents

Cash and cash equivalents in the balance sheet comprise cash on hand, bank balances and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Notes on Financial Statements for the year ended 31st March, 2018

For the purpose of the Statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

2.07 Financial Assets

i) Initial recognition and measurement

Financial assets are recognised when the Company becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset.

ii) Subsequent Measurement

Financial assets are subsequently / classified and measured at:

amortised cost

fair value through profit and loss (FVTPL)

fair value through other comprehensive income (FVOCI)

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

iii) Trade Receivables and Loans

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

iv) Debt Instruments

(a) Debt instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the Company's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

(b) Measured at amortised cost: Financial assets that are held within a business

model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

(c) Financial assets at fair value through other comprehensive income (FVOCI):

A financial asset is measured at FVOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(d) Measured at fair value through profit or loss:

A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'Other Income' in the Statement of Profit and Loss.

v) Equity Instruments

All investments in equity instruments classified under financial assets are initially measured at fair value, the Company may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL.

The Company makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Company has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

vi) Derecognition

The Company derecognises a financial asset when the contractual rights to the cash flows

Notes on Financial Statements for the year ended 31st March, 2018

from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

vii) Impairment of Financial asset

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Company recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Company's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

2.08 Financial Liabilities

i) Initial recognition and measurement

Financial liabilities are recognised when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

ii) Subsequent Measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

iii) Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

2.09 Offsetting of Financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.10 Derivative financial instruments

The Company uses derivative financial instruments, such as forward currency contracts and interest rate swaps, to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of item being hedged and the type of hedge relationship designated.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

2.11 Provisions and Contingent Liabilities

Provisions are recognized when the Company has a present obligation as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date. The expenses relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the company or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Notes on Financial Statements for the year ended 31st March, 2018

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

Commitments includes the amount of purchase orders (net of advance) issued to parties for acquisition of assets.

Provisions, contingent assets, contingent liabilities and commitments are reviewed at each balance sheet date.

2.12 Revenue recognition

Revenue is measured at fair value of the consideration received or receivable and is reduced by rebates, allowances and taxes and duties collected on behalf of the government. The Company has assumed the recovery of excise duty flows to the Company on its own account, for the reason that it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Accordingly revenue includes excise duty for the year ended March 31, 2017 and for the period from April 1, 2017 to June 30, 2017. From July 1, 2017 the revenue excludes Goods and Service Tax (GST) collected from customers.

i) Sale of goods

Sales are recognised when goods are supplied and significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of contract and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods.

ii) Dividend and Interest income

Dividend income is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the Company and amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount on initial recognition.

iii) Insurance Claims

Insurance claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on ground of prudence.

2.13 Foreign Currencies Transactions

The financial statements of the Company are presented in Indian Rupee (INR), which is Company's functional and presentation currency.

Transactions in currencies other than entity's functional currency (foreign currency) are recorded at the rates of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies (other than derivative contracts) remaining unsettled at the end of the each reporting period are remeasured at the rates of exchange prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currency are retranslated at the rate prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange difference on monetary items are recognised in profit and loss in the period.

2.14 Borrowing costs

Borrowing costs are interest and other costs that the Company incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs that are directly attributable to the acquisition of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is put to use. Other borrowing costs are recognised as an expense in the period in which they are incurred.

2.15 Employee Benefits

i) Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, performance incentives, etc., are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the employee renders the related service.

Notes on Financial Statements for the year ended 31st March, 2018

ii)	Post Employment Benefit	differences to the extent that is probable that taxable profits will be available against which those deductible temporary differences can be utilised.
	(a) Defined Contribution Plans	The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.
	(b) Defined Benefit Plans	Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period.
	The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, after discounting the same. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognized immediately in Other Comprehensive Income (OCI). Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss.	Deferred tax assets and liabilities are offset to the extent that they relate to taxes levied by the same tax authority and there are legally enforceable rights to set off current tax assets and current tax liabilities within that jurisdiction.
	iii) Minimum alternate tax	Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is recognised as a deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the Company will pay normal income tax during the specified period and it is probable that future economic benefit associated with it will flow to the Company.
	iv) Current and deferred tax are recognised in profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.	
	2.16 Taxes on Income	
	i) Current tax	Current tax is payable based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Standalone statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.
	ii) Deferred tax	Deferred tax is the tax expected to be payable or recoverable on temporary differences between the carrying value of assets and liabilities in the Standalone financial statements and the corresponding tax bases used in the computation of taxable profits and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are only recognised on deductible temporary
	2.17 Earning Per Share	Basic Earnings per share is calculated by dividing the net profit / (loss) for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit / (loss) for the period attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

36. Capital management

The Company manages its capital to ensure that entities will be able to continue as going concerns while maximising the return to stakeholders through the optimisation of the debt and equity balance. The Capital structure of the Company consists of net debt and the total equity of the Company.

The Company manages its capital structure and makes adjustments in light of changes in economic conditions and the requirements of the financial covenants. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. The Company monitors capital using a gearing ratio, which is net debt divided by total capital plus net debt. The Company includes within net debt, long term-term borrowings, short-term borrowings, less cash and short-term deposits.

Gearing Ratio

The gearing ratio at end of the reporting period was as follows

	As at 31.03.2018	As at 31.03.2017	As at 01.04.2016

Net debt to equity ratio	(0.12)	(0.20)	(0.17)

37. Financial risk management objectives and policies

The Company's principal financial liabilities, other than derivatives, comprise loans and borrowings and trade and other payables. The Company's principal financial assets include loans, trade and other receivables, and cash and short-term deposits that derive directly from its operations. The Company also holds FVTOCI investments and enter into derivative transactions. The Company is exposed to market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Company seeks to minimise the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Company's policies approved by the board of directors, which provide written principles on foreign exchange risks, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments. The Company does not enter into or trade financial instruments including derivative financial instruments, for speculative purposes.

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Company's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Company enters into derivative financial instruments to manage its exposure to foreign currency risk and interest rate risk.

Foreign currency risk management

The Company is exposed to currency risk on account of its borrowings, Receivables for Exports and Payables for Imports in foreign currency. The functional currency of the Company is Indian Rupee. The Company manages currency exposures within prescribed limits, through use of forward exchange contracts. Foreign exchange transactions are covered with strict limits placed on the amount of uncovered exposure, if any, at any point in time.

	INR	6,471.06	-	258.69
Buyers' Credit	USD	16.43	-	-
	INR	1,056.75	-	-

Interest rate risk management

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market interest rates. The company's exposure to the risk of changes in market interest rates relates primarily to the company's short-term debt obligations with floating interest rates.

Interest rate sensitivity analysis

The Company does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

(ii) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and loans and advances.

The carrying amount of following financial assets represents the maximum credit exposure:

Trade receivables and loans and advances.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the geography in which it operates. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Company grants credit terms in the normal course of business.

The Company monitors each loans and advances given and makes any specific provision wherever required.

Based on prior experience and an assessment of the current economic environment, Management believes there is no credit risk provision required. Also Company does not have any significant concentration of credit risk.

The ageing of trade receivables that were not impaired was as follows

Particulars	As at 31.03.2018	As at 31.03.2017	As at 01.04.2016
Others	5,051.87	3,402.82	3,035.37
	5,051.87	3,402.82	3,035.37

(iii) Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Management monitors rolling forecasts of the Company's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

38. Fair value measurements

Refer Note (2.07) for accounting policy on Financial Instruments.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

the following methods and assumptions were used to estimate the fair values:

Fair value of cash and short term deposits, trade and other short term receivables, trade payables, other current liabilities, working capital loan from banks approximate their carrying amounts largely due to the short term maturities of these instruments.

Financial instruments other than above are carried at amortised cost except certain assets which are carried at fair value.

The company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

Level -1 : Quoted prices in active markets for identical assets or liabilities.

Level -2 : Other techniques for which all inputs which have a significant effects on the recorded fair value are observable.

Level -3 : Techniques using inputs having significant effect on the recorded fair value that are not based on observable market data.

41 First Time Adoption of IND AS

41.1 Transition to IND AS

The Company has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from April 01, 2017, with a transition date of April 01, 2016. These financial statements for the year ended March 31, 2018 are the first financial statements the Company has prepared under Ind AS. For all periods upto and including the year ended March 31, 2017 , the Company prepared its financial statements in accordance with the accounting standards notified under the Section 133 of the Companies Act 2013, read together with the relevant Rules thereunder ('Previous GAAP').

The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and Effective for the first Ind AS financial statements be applied retrospectively and consistently for all financial years presented. Accordingly, the Company has prepared financial statements which comply with Ind AS for year ended March 31, 2018, together with the comparative information as at and for the year ended March 31, 2017 and the opening Ind AS Balance Sheet as at April 01, 2016, the date of transition to Ind AS.

In preparing these Ind AS financial statements, the Company has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP and have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the Company in restating its financial statements prepared under previous GAAP, including the Balance Sheet as at April 01, 2016 and the financial statements as at and for the year ended March 31, 2017.

41.2 Optional Exemption Availed

(i) Deemed Cost

The Company has elected to continue with the carrying value for (written down value) all of its property, plant and equipment, intangible assets and investment property as recognised in the financial statements as the deemed cost at the date of transition to Ind AS, measured as per the previous GAAP

(ii) Deemed cost for investments in Associates

The Company has elected to continue with the carrying value of its investments in associates as recognised

Notes on Financial Statements for the year ended 31st March, 2018

(₹ in lacs)

in the financial statements as at the date of transition to Ind AS. Accordingly, the Company has measured all its investments in associates at their previous GAAP carrying value.

(iii) Business Combination

Ind AS 101 provided the option to apply Ind AS 103 prospectively from the transition date or specific date prior to the transition date. The Company has elected to apply Ind AS 103 prospectively to business combination occurring after its transition date. Business combination prior to the transition date have not been restated.

41.3 Mandatory Exceptions from retrospective application

(i) Estimates

On assessment of the estimates made under the Previous GAAP financial statements, the Company has concluded that there is no necessity to revise the estimates under Ind AS, as there is no objective evidence of an error in those estimates. However, estimates that were required under Ind AS but not required under previous GAAP are made by the Company for the relevant reporting dates reflecting conditions existing as at that date.

(ii) De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

(iii) Classification and measurement of financial assets

The Company has classified and measured the financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

41.6 There were no material differences between the Statement of Cash Flows presented under Ind AS and the Previous GAAP.

41.7 Notes to the Reconciliations:

- (i) **Deferred tax asset/liability:** Indian GAAP requires deferred tax accounting using the income statement Approach, which focuses on differences between taxable profits and accounting profits for the period. Ind-AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of the balance sheet approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP.
- (ii) **Derivative contracts:** Under Indian GAAP, the premium and discount on forward contracts were amortised over the contract period. For other derivative contracts only mark to market losses were recognised based on prudence. However, under Ind AS all derivatives are measured at fair value at each reporting period and changes therein are recognised in Statement of Profit and Loss.
- (iii) **Employee benefit:** Both under Indian GAAP and Ind AS the Company recognised costs related to post-employment defined benefit plan on an actuarial basis. Under Indian GAAP, actuarial gains and losses are charged to Statement of Profit or Loss, however in Ind AS the actuarial gains and losses are recognised through other comprehensive income.

ANNEXURE 'A' TO THE AUDITOR'S REPORT

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **GALLANT METAL LIMITED** ("the Holding Company") and its subsidiary and associate (collectively referred to as "the Group"), as of 31 March 2018 in conjunction with our audit of the Consolidated Ind AS financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Respective Board of Directors of the Company and its subsidiary and associate companies are responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the company's internal financial controls over financial reporting with reference to these consolidated financial statement based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of

changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Holding Company and its subsidiary and associate companies have, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31 March 2018, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid report under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to one subsidiary and one associate company, which is a company incorporated in India, is based on the corresponding report of the auditor of such company.

Notes on Consolidated Financial Statements for the year ended 31st March, 2018

Note - 01 General information

1.01 Corporate information

Gallant Metal Limited ("the Company") is a public limited company domiciled in India incorporated under the provisions of the Companies Act. The registered office of the company is located in Kolkata, West Bengal, India. The Company is listed on the Bombay Stock Exchange (BSE) and the National Stock Exchange (NSE). The Company including its subsidiary and associate collectively referred as (Group) is engaged in manufacturing of Steel and Steel products with power plant and having its manufacturing unit at Village Samakhiali, Dist Kutch in the State of Gujarat.

1.02 Basis of preparation of financial statement

The consolidated financial statement of the group have been prepared in accordance with the generally accepted accounting principles in India under the historical cost convention (except for certain financial instruments that are measured at fair values at the end of each reporting period) on accrual basis to comply in all material aspects with the Indian Accounting Standards (herein after referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 and Companies (Indian Accounting Standards) Amendment rules, 2016.

These consolidated financial statements for the year ended March 31, 2018 are the first, the Group has prepared under Ind AS. For all periods upto and including the year ended March 31, 2017, the Group prepared its financial statements in accordance with the accounting standards notified under the Section 133 of the Companies Act, 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (hereinafter referred to as 'Previous GAAP') used for its statutory reporting requirement in India immediately before adopting Ind AS. The consolidated financial statements for the year ended March 31, 2017 and the opening Balance Sheet as at April 01, 2016 have been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from Previous GAAP to Ind AS on the Company's Equity, Total Comprehensive Income is provided in note 41.

The consolidated financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial

statements, including the preparation of the opening Ind AS Balance Sheet as at April 01, 2016 being the 'date of transition to Ind AS'. All assets and liabilities of each entity in the Group have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Group has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

The financial statements of the group for the year ended March 31, 2018 were approved by the Board of Directors and authorised for issue on May 21, 2018.

1.03 Basis of measurement

These financial statements are prepared under the historical cost convention otherwise indicated.

1.04 Functional and presentation currency

The functional currency and presentation currency of the Group is Indian Rupee ("₹") which is the currency of the primary economic environment in which the Group operate. All amounts have been rounded to the nearest lakhs, unless otherwise indicated.

1.05 Key estimates and assumptions

The preparation of separate financial statements in conformity with the recognition and measurement principles of Ind AS requires the management of the Group to make estimates and assumptions that affect the reported balances of assets and liabilities, disclosures relating to contingent liabilities as at the date of the separate financial statements and the reported amounts of income and expense for the periods presented.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and future periods are affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements are included in the following notes:

Notes on Consolidated Financial Statements for the year ended 31st March, 2018

- Useful lives of Property, plant and equipment (Refer Note 2.01)
- Assets and obligations relating to employee benefits (Refer Note 2.15)
- Valuation and measurement of income taxes and deferred taxes (Refer Note 2.16)
- Provisions and Contingencies (Refer Note 2.11)

1.06 Measurement of fair values

The group's accounting policies and disclosures require the measurement of fair values for financial instruments.

The Group has an established control framework with respect to the measurement of fair values. The management regularly reviews significant unobservable inputs and valuation adjustments. If third party information, such as broker quotes or pricing services, is used to measure fair values, then the management assesses the evidence obtained from the third parties to support the conclusion that such valuations meet the requirements of Ind AS, including the level in the fair value hierarchy in which such valuations should be classified.

When measuring the fair value of a financial asset or a financial liability, the Group uses observable market data as far as possible. Fair values are categorised into different levels in a fair value hierarchy based on the inputs used in the valuation techniques as follows.

- Level 1: quoted prices (unadjusted) in active markets for identical assets or liabilities
- Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: inputs for the asset or liability that are not based on observable market data (unobservable inputs)

If the inputs used to measure the fair value of an asset or a liability fall into different levels of the fair value hierarchy, then the fair value measurement is categorised in its entirety in the same level of the fair value hierarchy as the lowest level input that is significant to the entire measurement.

The group recognises transfers between levels of the fair value hierarchy at the end of the reporting period during which the change has occurred.

Note -02 Significant Accounting Policies

2.01 Property, Plant and Equipment (PPE)

Land, Buildings, Plant and Equipment, Furniture and Fixtures and Vehicles held for use in the production or supply of goods or services, or for administrative purposes are stated at cost less accumulated depreciation and accumulated impairment losses. Freehold land is not depreciated. Cost includes purchase cost of materials, including import duties and non-refundable taxes, any directly attributable costs of bringing an asset to the location and condition of its intended use and borrowing costs capitalised in accordance with the Group's accounting policy.

Properties in the course of construction for production or supply of goods or services or for administrative purposes are carried at cost, less any recognised impairment losses.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over the useful lives, using the straight-line method. Depreciation of assets commences when the assets are ready for their intended use. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes accounted as change in estimate on a prospective basis.

Estimated useful lives of the assets are as follows:

Buildings	:	3 to 60 years
Plant and equipment	:	10 to 25 years
Furniture and Fixtures	:	10 years
Office Equipments	:	5 to 10 years
Computers	:	3 years
Motor Vehicles	:	8 to 10 years
Rolls	:	1 year

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is recognised in profit and loss.

The Group has elected to continue with the carrying value of all of its property, plant and equipment recognised as of April 1, 2016 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

Notes on Consolidated Financial Statements for the year ended 31st March, 2018

2.02 Intangible Assets

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and accumulated impairment (if any) losses. Amortisation is recognised at straight-line basis over their estimated useful lives. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

An intangible asset is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of intangible assets is recognised in profit and loss.

The Group has elected to continue with the carrying value of all of its intangible assets recognised as of April 1, 2016 measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

2.03 Impairment of tangible and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its tangible and intangible assets (Other than goodwill) to determine whether there is any indication that those assets have suffered any impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash generating unit to which the asset belongs.

Intangible assets with indefinite useful lives and intangible assets not yet available for use are tested for impairment at least annually, and whenever there is an indication that the asset may be impaired.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and risks specific to the asset for which the estimates of future cash flows have not be adjusted.

If the recoverable amount of an asset or cash generating unit is estimated to be less than the carrying amount, the carrying amount of the asset or cash generating unit is reduced to

its recoverable amount. An impairment loss is recognised immediately in profit and loss.

When an impairment loss subsequently reverses, the carrying value of the asset or cash generating unit is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset or cash generating unit in prior years. Any reversal of an impairment loss is recognised immediately in profit and loss.

2.04 Investments in Subsidiaries and Associates

Investments in subsidiaries and associates are carried at cost less accumulated impairment losses, if any. Where an indication of impairment exists, the carrying amount of the investment is assessed and written down immediately to its recoverable amount. On disposal of investments in subsidiaries and associates the difference between net disposal proceeds and the carrying amounts are recognized in the Statement of Profit and Loss.

Upon first-time adoption of Ind AS, the Company has elected to measure its investments in subsidiaries and associates at the Previous GAAP carrying amount as its deemed cost on the date of transition to Ind AS i.e., April 01, 2016.

2.05 Inventories

Raw materials, work-in-progress and finished products are valued at lower of cost and net realisable value after providing for obsolescence and other losses, where considered necessary. Cost includes purchase price, non refundable taxes and duties and other directly attributable costs incurred in bringing the goods to the point of sale. Work-in-progress and finished goods include appropriate proportion of overheads and, where applicable, excise duty.

Stores and spares are valued at cost comprising of purchase price, non refundable taxes and duties and other directly attributable costs after providing for obsolescence and other losses, where considered necessary.

Value of inventories are generally ascertained on the "FIFO (First in First out)" basis.

2.06 Cash and Cash equivalents

Cash and cash equivalents in the balance sheet comprise cash on hand, bank balances and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value.

Notes on Consolidated Financial Statements for the year ended 31st March, 2018

For the purpose of the Statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Group's cash management.

2.07 Financial Assets

i) Initial recognition and measurement

Financial assets are recognised when the Group becomes a party to the contractual provisions of the instrument.

On initial recognition, a financial asset is recognised at fair value, in case of Financial assets which are recognised at fair value through profit and loss (FVTPL), its transaction cost is recognised in the statement of profit and loss. In other cases, the transaction cost is attributed to the acquisition value of the financial asset.

ii) Subsequent Measurement

Financial assets are subsequently / classified and measured at:

amortised cost

fair value through profit and loss (FVTPL)

fair value through other comprehensive income (FVOCI)

Financial assets are not reclassified subsequent to their recognition, except if and in the period the Company changes its business model for managing financial assets.

iii) Trade Receivables and Loans

Trade receivables are initially recognised at fair value. Subsequently, these assets are held at amortised cost, using the effective interest rate (EIR) method net of any expected credit losses. The EIR is the rate that discounts estimated future cash income through the expected life of financial instrument.

iv) Debt Instruments

(a) Debt instruments are initially measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVTPL') till derecognition on the basis of (i) the Group's business model for managing the financial assets and (ii) the contractual cash flow characteristics of the financial asset.

(b) Measured at amortised cost: Financial assets that are held within a business

model whose objective is to hold financial assets in order to collect contractual cash flows that are solely payments of principal and interest, are subsequently measured at amortised cost using the effective interest rate ('EIR') method less impairment, if any. The amortisation of EIR and loss arising from impairment, if any is recognised in the Statement of Profit and Loss.

(c) Financial assets at fair value through other comprehensive income (FVTOCI):

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(d) Measured at fair value through profit or loss: A financial asset not classified as either amortised cost or FVOCI, is classified as FVTPL. Such financial assets are measured at fair value with all changes in fair value, including interest income and dividend income if any, recognised as 'Other Income' in the Statement of Profit and Loss.

v) Equity Instruments

All investments in equity instruments classified under financial assets are initially measured at fair value, the Group may, on initial recognition, irrevocably elect to measure the same either at FVOCI or FVTPL.

The Group makes such election on an instrument-by-instrument basis. Fair value changes on an equity instrument is recognised as other income in the Statement of Profit and Loss unless the Group has elected to measure such instrument at FVOCI. Fair value changes excluding dividends, on an equity instrument measured at FVOCI are recognized in OCI. Amounts recognised in OCI are not subsequently reclassified to the Statement of Profit and Loss. Dividend income on the investments in equity instruments are recognised as 'other income' in the Statement of Profit and Loss.

vi) Derecognition

The Group derecognises a financial asset when the contractual rights to the cash flows

Notes on Consolidated Financial Statements for the year ended 31st March, 2018

from the financial asset expire, or it transfers the contractual rights to receive the cash flows from the asset.

vii) Impairment of Financial asset

Expected credit losses are recognized for all financial assets subsequent to initial recognition other than financial assets in FVTPL category.

For financial assets other than trade receivables, as per Ind AS 109, the Group recognises 12 month expected credit losses for all originated or acquired financial assets if at the reporting date the credit risk of the financial asset has not increased significantly since its initial recognition. The expected credit losses are measured as lifetime expected credit losses if the credit risk on financial asset increases significantly since its initial recognition. The Group's trade receivables do not contain significant financing component and loss allowance on trade receivables is measured at an amount equal to life time expected losses i.e. expected cash shortfall.

The impairment losses and reversals are recognised in Statement of Profit and Loss.

2.08 Financial Liabilities

i) Initial recognition and measurement

Financial liabilities are recognised when the Group becomes a party to the contractual provisions of the instrument. Financial liabilities are initially measured at the amortised cost unless at initial recognition, they are classified as fair value through profit and loss. In case of trade payables, they are initially recognised at fair value and subsequently, these liabilities are held at amortised cost, using the effective interest method.

ii) Subsequent Measurement

Financial liabilities are subsequently measured at amortised cost using the EIR method. Financial liabilities carried at fair value through profit or loss are measured at fair value with all changes in fair value recognised in the Statement of Profit and Loss.

iii) Derecognition

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expires.

2.09 Offsetting of Financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

2.10 Derivative financial instruments

The group uses derivative financial instruments, such as forward currency contracts and interest rate swaps, to hedge its foreign currency risks and interest rate risks respectively. Such derivative financial instruments are initially recognised at fair value on the date on which a derivative contract is entered into and are subsequently re-measured at fair value at the end of each reporting period. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of item being hedged and the type of hedge relationship designated.

Derivatives are carried as financial assets when the fair value is positive and as financial liabilities when the fair value is negative.

2.11 Provisions and Contingent Liabilities

Provisions are recognized when the Group has a present obligation as a result of a past event; it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and when a reliable estimate of the amount of the obligation can be made. Provisions are measured at the best estimate of the expenditure required to settle the present obligation at the Balance Sheet date. The expenses relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement.

If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows specific to the liability. The unwinding of the discount is recognised as finance cost.

Contingent liabilities are disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the group or a present obligation that arises from past events where it is either not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount cannot be made.

Notice

Board & Management Report

Standalone Financial Report

Consolidated Financial Report

Notes on Consolidated Financial Statements for the year ended 31st March, 2018

A contingent asset is not recognised but disclosed in the financial statements where an inflow of economic benefit is probable.

Commitments includes the amount of purchase orders (net of advance) issued to parties for acquisition of assets.

Provisions, contingent assets, contingent liabilities and commitments are reviewed at each balance sheet date.

2.12 Revenue recognition

Revenue is measured at fair value of the consideration received or receivable and is reduced by rebates, allowances and taxes and duties collected on behalf of the government. The group has assumed the recovery of excise duty flows to the Group on its own account, for the reason that it is a liability of the manufacturer which forms part of the cost of production, irrespective of whether the goods are sold or not. Accordingly revenue includes excise duty for the year ended March 31, 2017 and for the period from April 1, 2017 to June 30, 2017. From July 1, 2017 the revenue excludes Goods and Service Tax (GST) collected from customers.

i) Sale of goods

Sales are recognised when goods are supplied and significant risks and rewards of ownership in the goods are transferred to the buyer as per the terms of contract and no significant uncertainty exists regarding the amount of the consideration that will be derived from the sale of the goods.

ii) Dividend and Interest income

Dividend income is recognised when the shareholder's right to receive payment has been established (provided that it is probable that the economic benefits will flow to the group and amount of income can be measured reliably).

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Group and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the asset's net carrying amount on initial recognition.

iii) Insurance Claims

Insurance claims are accounted for on acceptance and when there is a reasonable certainty of receiving the same, on ground of prudence.

2.13 Foreign Currencies Transactions

The financial statements of the Group are presented in Indian Rupee (INR), which is Group's functional and presentation currency.

Transactions in currencies other than entity's functional currency (foreign currency) are recorded at the rates of exchange prevailing on the date of the transaction. Monetary assets and liabilities denominated in foreign currencies (other than derivative contracts) remaining unsettled at the end of the each reporting period are remeasured at the rates of exchange prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currency are retranslated at the rate prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated. Exchange difference on monetary items are recognised in profit and loss in the period.

2.14 Borrowing costs

Borrowing costs are interest and other costs that the Group incurs in connection with the borrowing of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs that are directly attributable to the acquisition of an asset that necessarily takes a substantial period of time to get ready for its intended use are capitalised as part of the cost of that asset till the date it is put to use. Other borrowing costs are recognised as an expense in the period in which they are incurred.

2.15 Employee Benefits

i) Short-term benefits

All employee benefits payable wholly within twelve months of rendering the service are classified as short term employee benefits. Benefits such as salaries, performance incentives, etc., are recognized as an expense at the undiscounted amount in the Statement of Profit and Loss of the year in which the employee renders the related service.

Notes on Consolidated Financial Statements for the year ended 31st March, 2018

ii) Post Employment Benefit

(a) Defined Contribution Plans

Payments made to a defined contribution plan such as Provident Fund and Family Pension maintained with Regional Provident Fund Office are charged as an expense in the Statement of Profit and Loss as they fall due.

(b) Defined Benefit Plans

The Group's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods, after discounting the same. The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. Re-measurement of the net defined benefit liability, which comprise actuarial gains and losses are recognized immediately in Other Comprehensive Income (OCI). Net interest expense (income) on the net defined liability (assets) is computed by applying the discount rate, used to measure the net defined liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in Statement of Profit and Loss.

2.16 Taxes on Income

i) Current tax

Current tax is payable based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the Standalone statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

ii) Deferred tax

Deferred tax is the tax expected to be payable or recoverable on temporary differences between the carrying value of assets and liabilities in the Standalone financial statements and the corresponding tax bases used in the computation of taxable profits and is accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are only recognised on deductible temporary

differences to the extent that is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rates (and tax laws) that have been enacted or substantially enacted by the end of the reporting period.

Deferred tax assets and liabilities are offset to the extent that they relate to taxes levied by the same tax authority and there are legally enforceable rights to set off current tax assets and current tax liabilities within that jurisdiction.

iii) Minimum alternate tax

Minimum Alternate Tax (MAT) paid in accordance with the tax laws, which gives future economic benefits in the form of adjustment to future income tax liability, is recognised as a deferred tax asset in the balance sheet when the asset can be measured reliably and it is probable that the group will pay normal income tax during the specified period and it is probable that future economic benefit associated with it will flow to the group.

iv) Current and deferred tax are recognised in profit and loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

2.17 Earning Per Share

Basic Earnings per share is calculated by dividing the net profit / (loss) for the period attributable to the equity shareholders by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diluted earnings per share, the net profit / (loss) for the period attributable to the equity shareholders and the weighted average number of equity shares outstanding during the period is adjusted for the effects of all dilutive potential equity shares.

37. Financial risk management objectives and policies

The Group's principal financial liabilities, other than derivatives, comprise loans and borrowings and trade and other payables. The Group's principal financial assets include loans, trade and other receivables, and cash and short-term deposits that derive directly from its operations. The Group also holds FVTOCI investments and enter into derivative transactions. The Company is exposed to market risk (including currency risk, interest rate risk and other price risk), credit risk and liquidity risk.

The Group seeks to minimise the effects of these risks by using derivative financial instruments to hedge risk exposures. The use of financial derivatives is governed by the Group's policies approved by the board of directors, which provide written principles on foreign exchange risks, interest rate risk, credit risk, the use of financial derivatives and non-derivative financial instruments. The Group does not enter into or trade financial instruments including derivative financial instruments, for speculative purposes.

(i) Market Risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. The Group's activities expose it primarily to the financial risks of changes in foreign currency exchange rates and interest rates. The Group enters into derivative financial instruments to manage its exposure to foreign currency risk and interest rate risk.

Foreign currency risk management

The Group is exposed to currency risk on account of its borrowings, Receivables for Exports and Payables for Imports in foreign currency. The functional currency of the Group is Indian Rupee. The Group manages currency exposures within prescribed limits, through use of forward exchange contracts. Foreign exchange transactions are covered with strict limits placed on the amount of uncovered exposure, if any, at any point in time.

Exposure to currency Risk

The currency profile of financial liabilities as at Balance Sheet dates are as below:

Interest rate risk management

Interest rate risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of change in market interest rates. The group's exposure to the risk of changes in market interest rates relates primarily to the group's short-term debt obligations with floating interest rates.

Interest rate sensitivity analysis

The Group does not account for any fixed-rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

(ii) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and loans and advances.

The carrying amount of following financial assets represents the maximum credit exposure:

Trade receivables and loans and advances.

The group's exposure to credit risk is influenced mainly by the individual characteristics of each customer and the geography in which it operates. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of customers to which the Group grants credit terms in the normal course of business.

The Group monitors each loans and advances given and makes any specific provision wherever required.

Based on prior experience and an assessment of the current economic environment, Management believes there is no credit risk provision required. Also Group does not have any significant concentration of credit risk.

The ageing of trade receivables that were not impaired was as follows

Particulars	As at 31.03.2018	As at 31.03.2017	As at 01.04.2016
Others	5,051.87	3,402.82	3,035.37
	5,051.87	3,402.82	3,035.37

(iii) Liquidity Risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Management monitors rolling forecasts of the group's liquidity position on the basis of expected cash flows. This monitoring includes financial ratios and takes into account the accessibility of cash and cash equivalents.

The Group has access to funds from debt markets through loan from banks and other Debt instrument. The Group invests its surplus funds in bank fixed deposits.

38. Fair value measurements

Refer Note (2.07) for accounting policy on Financial Instruments.

The fair values of the financial assets and liabilities are included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

The following methods and assumptions were used to estimate the fair values:

Fair value of cash and short term deposits, trade and other short term receivables, trade payables, other current liabilities, working capital loan from banks approximate their carrying amounts largely due to the short term maturities of these instruments.

Financial instruments other than above are carried at amortised cost except certain assets which are carried at fair value.

The group uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique.

Level -1 : Quoted prices in active markets for identical assets or liabilities.

Level -2 : Other techniques for which all inputs which have a significant effects on the recorded fair value are observable.

Level -3 : Techniques using inputs having significant effect on the recorded fair value that are not based on observable market data.

Notes:

- 1 The Group has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in its financial statements. The Group does not expect the outcome of these proceedings to have a materially adverse effect on its financial results.
- 2 It is not practicable for the Group to estimate the timings of cash outflows, if any, in respect of the above pending resolution of the respective proceedings as it is determinable only on receipt of judgements/ decisions pending with various forums/authorities.

41 First Time Adoption of IND AS

41.1 Transition to IND AS

The Group has adopted Indian Accounting Standards (Ind AS) as notified by the Ministry of Corporate Affairs with effect from April 01, 2017, with a transition date of April 01, 2016. These financial statements for the year ended March 31, 2018 are the first financial statements the Group has prepared under Ind AS. For all periods upto and including the year ended March 31, 2017 , the group prepared its financial statements in accordance with the accounting standards notified under the Section 133 of the Companies Act 2013, read together with the relevant Rules thereunder ('Previous GAAP').

The adoption of Ind AS has been carried out in accordance with Ind AS 101, First-time Adoption of Indian Accounting Standards. Ind AS 101 requires that all Ind AS standards and interpretations that are issued and Effective for the first Ind AS financial statements be applied retrospectively and consistently for all financial years presented. Accordingly, the group has prepared financial statements which comply with Ind AS for year ended March 31, 2018, together with the comparative information as at and for the year ended March 31, 2017 and the opening Ind AS Balance Sheet as at April 01, 2016, the date of transition to Ind AS.

In preparing these Ind AS financial statements, the group has availed certain exemptions and exceptions in accordance with Ind AS 101, as explained below. The resulting difference between the carrying values of the assets and liabilities in the financial statements as at the transition date under Ind AS and Previous GAAP and have been recognised directly in equity (retained earnings or another appropriate category of equity). This note explains the adjustments made by the Company in restating its financial statements prepared under previous GAAP, including the Balance Sheet as at April 01, 2016 and the financial statements as at and for the year ended March 31, 2017.

41.2 Optional Exemption Availed

(i) Deemed Cost

The Group has elected to continue with the carrying value for (written down value) all of its property, plant and equipment, intangible assets and investment property as recognised in the financial statements as the deemed cost at the date of transition to Ind AS, measured as per the previous GAAP

(ii) Deemed cost for investments in Associates

The group has elected to continue with the carrying value of its investments in associates as recognised in the financial statements as at the date of transition to Ind AS. Accordingly, the group has measured all its investments in associates at their previous GAAP carrying value.

(iii) Business Combination

Ind AS 101 provided the option to apply Ind AS 103 prospectively from the transition date or specific date prior to the transition date. The Company has elected to apply Ind AS 103 prospectively to business combination occurring after its transition date. Business combination prior to the transition date have not been restated.

41.3 Mandatory Exceptions from retrospective application

(i) Estimates

On assessment of the estimates made under the Previous GAAP financial statements, the group has concluded that there is no necessity to revise the estimates under Ind AS, as there is no objective evidence of an error in those estimates. However, estimates that were required under Ind AS but not required under previous GAAP are made by the Group for the relevant reporting dates reflecting conditions existing as at that date.

(ii) De-recognition of financial assets and liabilities

Ind AS 101 requires a first-time adopter to apply the de-recognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of transition to Ind AS. However, Ind AS 101 allows a first-time adopter to apply the de-recognition requirements in Ind AS 109 retrospectively from a date of the entity's choosing, provided that the information needed to apply Ind AS 109 to financial assets and financial liabilities derecognised as a result of past transactions was obtained at the time of initially accounting for those transactions.

(iii) Classification and measurement of financial assets

The Group has classified and measured the financial assets on the basis of the facts and circumstances that exist at the date of transition to Ind AS.

Notes on Consolidated Financial Statements for the year ended 31st March, 2018

(₹ in lacs)

41.7 Notes to the Reconciliations:

- (i) **Deferred tax asset/liability:** Indian GAAP requires deferred tax accounting using the income statement Approach, which focuses on differences between taxable profits and accounting profits for the period. Ind-AS 12 requires entities to account for deferred taxes using the balance sheet approach, which focuses on temporary differences between the carrying amount of an asset or liability in the balance sheet and its tax base. The application of the balance sheet approach has resulted in recognition of deferred tax on new temporary differences which was not required under Indian GAAP.
- (ii) **Derivative contracts:** Under Indian GAAP, the premium and discount on forward contracts were amortised over the contract period. For other derivative contracts only mark to market losses were recognised based on prudence. However, under Ind AS all derivatives are measured at fair value at each reporting period and changes therein are recognised in Statement of Profit and Loss.
- (iii) **Employee benefit:** Both under Indian GAAP and Ind AS the Company recognised costs related to post-employment defined benefit plan on an actuarial basis. Under Indian GAAP, actuarial gains and losses are charged to Statement of Profit or Loss, however in Ind AS the actuarial gains and losses are recognised through other comprehensive income.

4. A person can act as proxy on behalf of members not exceeding fifty and holding in the aggregate not more than 10% of the total share capital of the Company carrying voting rights. A member holding more than 10% of the total share capital of the Company carrying voting rights may appoint a single person as proxy and such person shall not act as a proxy for any other person or shareholder.
5. **This is only optional. Please put a 'x' in the appropriate column against the resolutions indicated in the Box. If you leave the 'For' or 'Against' column blank against any or all the resolutions, your Proxy will be entitled to vote in the manner as he/she thinks appropriate.
6. Appointing a proxy does not prevent a member from attending the meeting in person if he so wishes.
7. In the case of joint holders, the signature of any one holder will be sufficient, but names of all the joint holders should be stated.
